

QR series - Counterflow systems (Fitness, fun and treatment on demand)

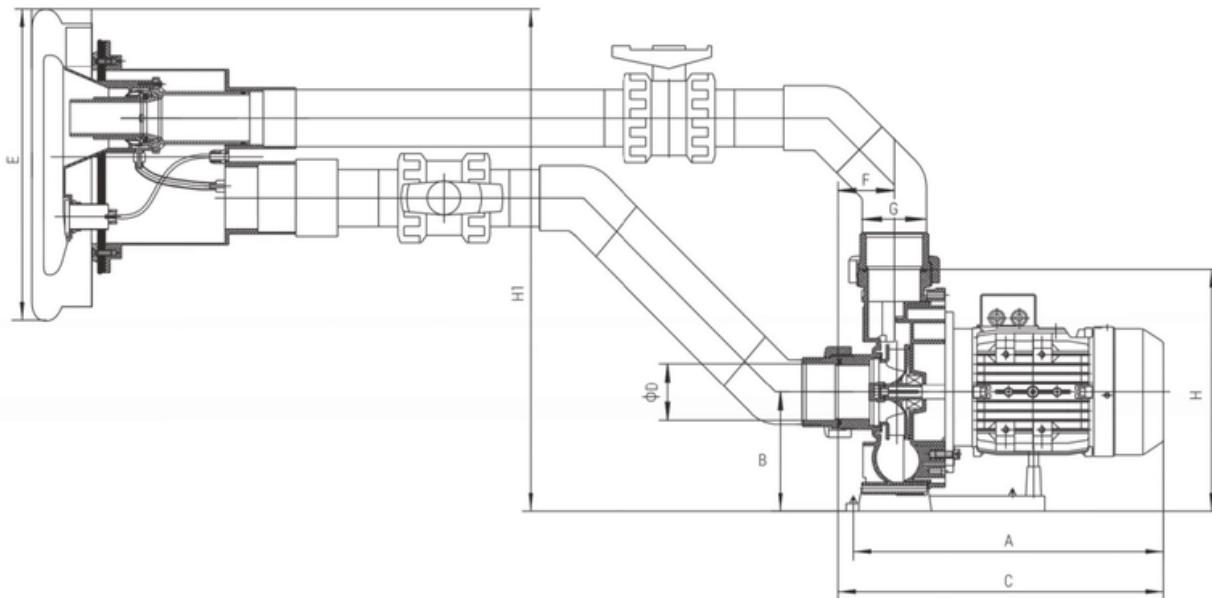

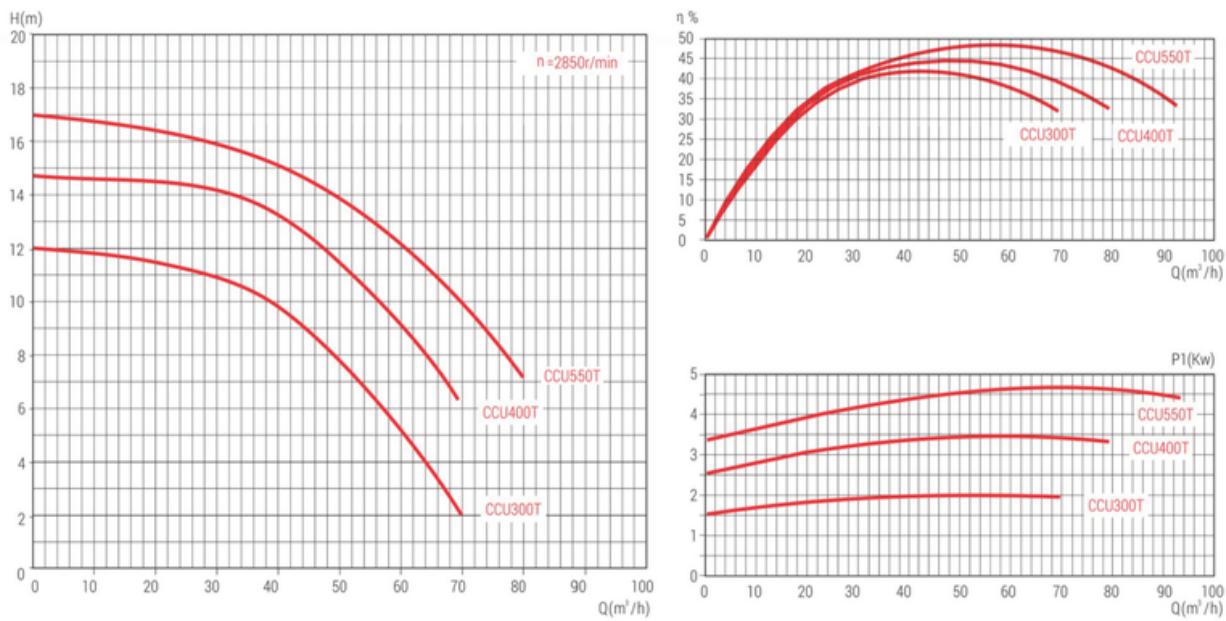

QR countercurrent swimming equipment makes it possible to customize therapeutic, training and fun activities in any kind of pool. The compact plastic design and its reduced size enable it to be fitted in the smallest of spaces and it is fully compatible with any kind of pool surfaces. The multi-directional nozzle makes the jet of water easily adjustable to suit different kinds of exercises.

- Supplied in a kit that includes a front panel, nozzle set, wall housing and a pneumatic ON/OFF switch
- Pump body & pump foot in PP
- Pump body without strainer basket
- Asynchronous continuous duty 2-pole motor with F class insulation
- Union connectors with 90/90 mm BS pipe sockets
- Ball bearings- water-proof, sealed, resistant to water and humidity
- Standard Voltage: Three-phase 230/400V 50Hz
- Liquid temperature range: up to 50°C
- Maximum ambient temperature: up to 50°C
- Maximum operating pressure: 2,5 bar
