

Jet Swim Athlete

Well - balanced water flow makes swimming and training efficient and pleasant

A modern and minimalistic design utilizing a balanced water flow for your personal swim training needs. Jet Swim Athlete uses the same new flow technique with two oval nozzles, as Jet Swim Motion, launched last year. The lower nozzle is directed downwards for lifting the lower body to provide a more natural swimming experience. With a powerful capacity, you can easily improve your swim technique and physical fitness.

Jet Swim Athlete is mainly made of acid-proof stainless steel EN 1.4404 and fulfills European Pool standards EN16582 and EN16713. The pump is made of bronze with a 4.0 kW IE3 motor which complies with the European ECO-design directive and is also third part approved for Electric Safety by Intertek according to International IEC and European EN Standard IEC/EN 60335.

All components of the unit is designed with focus on durability and sustainability.

With a motor power of 4.0 kW and with jet streams of 68 m³/h, you can easily exercise your strength and physical fitness. Jet Swim Athlete is started by pressing a pneumatic pushbutton on the front. The wide angled oval nozzles allow comfortable swimming and training.
